| 9 | M5 Semi-tapping screw | 2 |
| 10 | Strike plate box | 1 |
| 11 | Cylinder (with keys) | 1 |
| 12 | Strike plate | 1 |

2. Product advantages and specifications

- · Zinc alloy materials.
- $\cdot\;$ With the function of anti-peeped passwords; supports 24 digits messy code login.
- $\cdot\;$ High technology for the touch panel with high sensitivity and immunity.
- · Waterproof, Moisture-proof and Mildew.
- $\cdot\,$ The main board fits for harsh environments due to it has passed the test of extreme temperature, shock and aging.
- · CPU adopts original Philips chip.
- $\cdot\,$ Lock of heaven and earth: locked by lifting up the handle, high security heaven and earth pull rod interlock.
- $\cdot\,$ Convenient to replace for mechanical lock highly optimized for general use no need to punch holes for replacement.
- $\cdot~$ Heaven and earth pull rod locker(It's easy to replace for anti-theft mechanical locker)
- · Modern fashion type of panel.
- · Optional ways to open the lock (Password or card, password + card, Key)
- · Power system for emergency: DC9V batteries backup power interface.

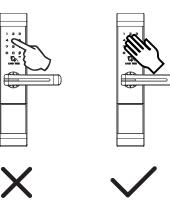

3. Technical parameters

| Apply to | ID card |
|-----------------------|---|
| Induction way | Recognized by Microwave |
| Capacity of passwords | 200 groups |
| Capacity of cards | 800 cards |
| Power supply | DV4.5V~6.5V, 4*1.5V AA Alkaline batteries |
| Static current | <45 uA |
| Working Current | <350mA |
| Low voltage alarm | Sound and light alarm when voltage is below 4.8V. It is able to unlock 50times after that |
| Driver | Direct Current Micro Motor |
| Lock body | Anti-theft digital mortise lock body |
| Service Life | More than 30,0000 times unlocking |
